The Health System in Aotearoa is entering a period of transformation as we implement the Pae Ora/Healthy Futures vision of a reformed system where people live longer in good health, have improved quality of life, and there is equity between all groups.

We want to build a healthcare system that works collectively and cohesively around a shared set of values and a culture that enables everyone to bring their best to work and feel proud when they go home to their whānau, friends and community. The reforms are expected to achieve five system shifts. These are:

1. The health system will reinforce Te Tiriti principles and obligations.
2. All people will be able to access a comprehensive range of support in their local communities to help them stay well.
3. Everyone will have equal access to high quality emergency and specialist care when they need it.
4. Digital services will provide more people the care they need in their homes and communities.
5. Health and care workers will be valued and well-trained for the future health system.

### Te Mauri o Rongo – The New Zealand Health Charter

The foundation for how we ensure our people are empowered, safe and supported while working to deliver a successful healthcare system, is Te Mauri o Rongo – the New Zealand Health Charter. It guides all of us as we work towards a healthcare system that is more responsive to the needs of, and accessible to all people in Aotearoa New Zealand.

It applies to everyone in our organisation and sits alongside our code of conduct as our guiding document.

Te Mauri o Rongo consists of four pou (pillars) within it, including:

**Wairuatanga** – working with heart, the strong sense of purpose and commitment to service that health workers bring to their mahi.

**Rangatiratanga** – as organisations we support our people to lead. We will know our people; we will grow those around us and be accountable with them in contributing to Pae Ora for all.

**Whanaungatanga** – we are a team, and together a team of teams. Regardless of our role, we work together for a common purpose. We look out for each other and keep each other safe.

**Te Korowai Āhuru** – a cloak which seeks to provide safety and comfort to the workforce.

These values underpin how we relate to each other as we serve our whānau and communities.

Together we will do this by:

- caring for the people
- recognising, supporting and valuing our people and the work we all do
- working together to design and deliver services, and
- defining the competencies and behaviours we expect from everyone.

## About the role

---

The Registered Nurse (RN) is a multifaceted role whose practice has a significant impact on patient outcomes. RNs provide safe, evidence-informed, and culturally responsive care, grounded in the principles of Te Tiriti o Waitangi and aligned with the six Pou of nursing competence. Working collaboratively within interprofessional teams, promotes health, prevents illness, and supports recovery for individuals, whānau, and communities. Central to this role is a strong commitment to advocacy, equity, and excellence in care for Māori, Pacific and diverse populations. The RN actively contributes to building a positive team culture by fostering a collaborative, respectful, and solution-focused environment. They support accountability, encourage professional growth, and promote effective interprofessional teamwork to deliver high-quality care.

**Upholds equity in practice and cultural safety** – identifies, escalates and role models equity-based practice. Embeds kawawhakaruruhau and culturally safe care in planning, communication and decision making.

**Leads where we stand** – identifies and acts when patient /whanau concerns are raised, demonstrates manaakitanga whilst providing patient whanau centred care, actively acts to improve care and outcomes.

**Participates and promotes quality and safety initiatives** - takes a 'how can I help' approach to change and quality improvement initiatives and implementation.

**Teamwork** - Promotes a shared care, shared responsibility one team around the person approach, to patient /whanau centred care. Promotes a positive 'how can I help' culture to teamwork, built on maanakitanga, whanaungatanga, accountability and collaboration.

**Innovation – Respect – Integrity – Teamwork-** Incorporate the organisational values to provide care, develop professional relationships, improve patient outcomes and find positive solutions.

**Uphold cultural safety and equity –** Actively integrate kawawhakaruruhau to practice and provide purposeful care to improve equitable outcomes

**A shared care, shared responsibility one team around the person approach** demonstrates a commitment to improving Nursing Key Performance Indicators (KPI), falls prevention, pressure area prevention and accurate CCDM
