Budget Size	Opex	Nil	Capex	Nil
Delegated Authority	HR	Nil	Finance	Nil
Date	April 2026			
Salary band (indicative)*	PSA Allied Public Health, Scientific and Technical Step 1 to 7			

The Health System in Aotearoa is entering a period of transformation as we implement the Pae Ora/Healthy Futures vision of a reformed system where people live longer in good health, have improved quality of life, and there is equity between all groups.

We want to build a healthcare system that works collectively and cohesively around a shared set of values and a culture that enables everyone to bring their best to work and feel proud when they go home to their whānau, friends and community. The reforms are expected to achieve five system shifts. These are:

1. The health system will reinforce Te Tiriti principles and obligations.
2. All people will be able to access a comprehensive range of support in their local communities to help them stay well.
3. Everyone will have equal access to high quality emergency and specialist care when they need it.
4. Digital services will provide more people the care they need in their homes and communities.
5. Health and care workers will be valued and well-trained for the future health system.

Te Mauri o Rongo – The New Zealand Health Charter

The foundation for how we ensure our people are empowered, safe and supported while working to deliver a successful healthcare system, is Te Mauri o Rongo – the New Zealand Health Charter. It guides all of us as we work towards a healthcare system that is more responsive to the needs of, and accessible to all people in Aotearoa New Zealand.

It applies to everyone in our organisation and sits alongside our code of conduct as our guiding document.

Te Mauri o Rongo consists of four pou (pillars) within it, including:

Wairuatanga – working with heart, the strong sense of purpose and commitment to service that health workers bring to their mahi.

Rangatiratanga – as organisations we support our people to lead. We will know our people; we will grow those around us and be accountable with them in contributing to Pae Ora for all.

Whanaungatanga – we are a team, and together a team of teams. Regardless of our role, we work together for a common purpose. We look out for each other and keep each other safe.

Te Korowai Āhuru – a cloak which seeks to provide safety and comfort to the workforce.

These values underpin how we relate to each other as we serve our whānau and communities.

Together we will do this by:

- caring for the people
- recognising, supporting and valuing our people and the work we all do
- working together to design and deliver services, and
- defining the competencies and behaviours we expect from everyone.

About the role

The primary purpose of the role is to:

Work in partnership with consumers who have health and disability needs in order for them to achieve optimum health and well-being through appropriate assessment, planning, intervention, evaluation and education.

This position works specifically with people who have age related or long-term chronic health conditions that result in them requiring support.

Key Result Area	Expected Outcomes / Performance Indicators
Client Assessment Processes and triages referrals. Conducts a comprehensive assessment considering the psycho-social, physical and functional needs of the client.	• Therapeutic relationships with clients are established, maintained and terminated appropriately. • Consults with the client and significant others regarding care and treatments working in partnership to establish care plan • Provides information and education to the client and significant others regarding their expected health outcomes and health trajectory • Completes holistic clinical assessments and documents identified needs • Facilitates access to specialist assessments where appropriate to enhance health outcome or health pathway • Assists clients / family with goal setting for condition/care management

	- Refers clients who do not meet eligibility criteria for the referred service on to other agencies as appropriate - Undertakes clinical assessments in clients own environment where possible - Works effectively with other services to ensure clients needs are effectively met
Service Co-ordination Review/Audit show that services are co-ordinated to effectively match identified needs and ensure optimum opportunity for restoration and/or maximisation of health/function	- Works collaboratively with other members of the health care team to identify plan of care or pathway for restorative care - Identifies inpatients who will require support on discharge developing (in partnership with consumer/whanau) a support plan to assist discharge planning - Determines in partnership with client/carer goal oriented plans - Identifies a broad range of service options that meets prioritised consumer needs - Facilitates access to the agreed package of support and services through referral and appropriate contractual processes - Reviews the appropriateness of support services and negotiates adjustments as necessary to meet the plan of restorative care
Operational Activities	- Demonstrates a commitment to quality service provision requirements as specified in the service descriptions and MOH Standards for Assessment and co-ordination - Efficiently and effectively manages allocated resources - Establishes and maintains effective communication across a wide range of consumers and provider agencies - Works collaboratively with other members of the health care team - Liaises with all health and disability services, including Health NZ (Nelson Marlborough) Medical and Surgical Wards, Child Development Services, Mental Health Services, Disability Support Services; NGO providers, for appropriate referrals and to support and facilitate discharge - Uses professional clinical judgement to assess and prioritise individual need and care packages - Anticipates work flow each week and/or organises resources, interventions and work prioritisation accordingly - Involves He Pukenga Haora when appropriate /requested - A commitment to quality service delivery and innovation is consistently demonstrated in all activities - Undertakes critical assessments for any potential or actual risk/safety issues and contacts the appropriate agency if any significant risks are identified In order to eliminate, mitigate or isolate same - Consistently takes up opportunities to obtain new skills and competencies which will enhance delivery of service

	Approaches quality improvement in an innovative manner bringing alternative solutions to existing issues and problems
Professional Development Utilises current evidence as the platform for all clinical assessments and activities.	- Contributes to the development and recognition of contemporary evidence based practice - Contribute to ongoing quality improvement in health practice and service delivery - Participates in annual performance reviews and process of performance goals and identifying areas for professional development
Internal & External Networks and Relationship Development	- Develops effective and supportive interpersonal relationships with peers and other health workers to enhance consumer outcomes - Positive feedback to and from internal and external colleagues - Effectively communicates with referrers to ensure appropriate, timely and relevant clinical information is available to inform clinical decision making - Maintains effective interpersonal relationships with all staff members and in all internal and external relationships - Demonstrates effective contact and liaison with service providers and referrers
Quality Improvement	- Participates in quality improvement processes in your area of work. - A quality, customer-focused service is provided at all times, which follows best practice
General	Other duties as negotiated with your Manager
Te Tiriti o Waitangi	- Remains focused on the pursuit of Māori health gain as well as achieving equitable health outcomes for Māori. - Supports tangata whenua- and mana whenua-led change to deliver mana motuhake and Māori self-determination in the design, delivery and monitoring of health care. - Actively supports kaimahi Māori by improving attraction, recruitment, retention, development, and leadership.

Equity	• Commits to helping all people achieve equitable health outcomes. • Demonstrates awareness of colonisation and power relationships. • Demonstrates critical consciousness and on-going self-reflection and self-awareness in terms of the impact of their own culture on interactions and service delivery. • Shows a willingness to personally take a stand for equity. • Supports Māori-led and Pacific-led responses.
Innovation & Improvement	• Is open to new ideas and create a culture where individuals at all levels bring their ideas on how to 'do it better' to the table. • Models an agile approach –tries new approaches, learns quickly, adapts fast. • Develops and maintains appropriate external networks to support current knowledge of leading practices.
Collaboration and Relationship Management	• Models good team player behaviour, working with colleagues to not allow silo thinking and behaviour at decision making level to get in the way of doing our best and collegially supports others to do the same. • Works with peers in Hauora Māori Service and Pacific Health Business Unit to ensure the voice of and direct aspirations of Māori and Pacific People are reflected in planning and delivery of services.
Health & safety	• Exercises leadership and due diligence in Health and Safety matters and ensures the successful implementation of Health and Safety strategy and initiatives. • Takes all reasonably practicable steps to eliminate and mitigate risks and hazards in the workplace that could cause harm, placing employee, contractor and others' health, safety, and wellbeing centrally, alongside high-quality patient outcomes. • Leads, champions, and promotes continual improvement in health and wellbeing to create a healthy and safe culture.
Compliance and Risk	• Takes responsibility to ensure appropriate risk reporting, management and mitigation activities are in place. • Ensures compliance with all relevant statutory, safety and regulatory requirements applicable to the Business Unit. • Understands, and operates within, the financial & operational delegations of their role, ensuring peers and team members are also similarly aware.

Appendix 1

Should a Registered Nurse be appointed to this position the following professional nursing responsibilities, expected outcomes, experience/knowledge and specific skills also apply

RESPONSIBILITIES	EXPECTED OUTCOMES
Domain One - Professional Responsibility <i>Domain One contains competencies that relate to professional, legal and ethical responsibilities and cultural safety. These include being able to demonstrate knowledge and judgment and being accountable for one's actions and decision, while promoting an environment that maximizes client's safety, independence, quality of life and health.</i>	
1.1 Provides professional direction, leadership and management of care delivery	• Practices in accordance with legal, ethical, cultural safety and professional standards. • Demonstrates clinical leadership in ethical decision making and patient advocacy. • Takes a leadership role in implementing care delivery and service initiatives with a nursing and or multi disciplinary focus. • Understands accountability for directing, monitoring and evaluating nursing care provided by enrolled nurses and others. • Seeks advice from a senior registered nurse if unsure about the role and competence of enrolled nurses and others when delegating work. • Takes into consideration the role and competence of staff when delegating work. • Makes appropriate decisions when assigning care, delegating activities and providing direction for enrolled nurses and others. • Provides effective clinical leadership/role modelling to other staff within and across the nursing services and to other stakeholders to ensure that service delivery and practice standards are consistent, evidence based and complement the vision and values of Health NZ (Nelson Marlborough). • Maintains an overview of the clinical/professional issues/standards of practice and trends affecting health of older people within and beyond the service, assisting with the implementation of care initiatives including quality and safety activities. • Manages care delivery within evidence based treatment protocols for all patients. • Complies with quality focused nursing protocols with support from national groups (Health Quality and Safety Commission) guiding Nursing services ensuring care standards are articulated, supported, achieved, documented and audited. • Ensures that there is effective and timely patient centred communication within and across the health system in relation to the management of care. • Ensures that opportunities to contribute to service development and the achievement of outcomes are taken up.
1.2 Demonstrates the ability to apply the principles of the Treaty of Waitangi Te	• Understands the Treaty of Waitangi/Te Tiriti o Waitangi and its relevance to the health of Maori in Aotearoa/New Zealand. • Demonstrates knowledge of differing health and socio-economic status of Maori and non-Maori.

Tiriti o Waitangi to nursing practice	Applies the Treaty of Waitangi/Te Tiriti o Waitangi to nursing practice.
1.3 Promotes an environment that enables health consumer safety, independence, quality of life and health	- Identifies and reports situations that affect health consumers or staff members' health or safety. - Accesses, maintains and uses emergency equipment and supplies. - Maintains infection control principles. - Recognises and manages risks to provide care that best meets the needs and interests of health consumers and the public.
1.4 Practises nursing in a manner that the health consumer determines as being culturally safe	- Recognises the impact of the culture of nursing on health consumer's care and endeavours to protect the health consumer's wellbeing within this culture. - Practises in a way that respects each health consumer's identity and right to hold personal beliefs, values and goals. - Assists the health consumer to gain appropriate support and representation from those who understand the health consumer's culture, needs and preferences.
Domain Two - Management of Nursing Care <i>Domain Two contains competencies that are related to client assessment and the management of client care, which is responsive to clients' needs and is supported by nursing knowledge and evidence-based research.</i>	
2.1. Provides planned nursing care to achieve identified outcomes	- Contributes to care planning, involving health consumers and demonstrating an understanding of health consumers' rights, to make informed decisions. - Demonstrates understanding of the processes and environments that support recovery. - Identifies examples of the use of evidence in planned nursing care. - Undertakes practice procedures and skills in a competent and safe way. - Administers interventions, treatments and medications, (for example: intravenous therapy, calming and restraint), within legislation, codes and scope of practice; and according to authorised prescription, established policy and guidelines.
2.2 Undertakes a comprehensive and accurate nursing assessment of health consumers across a variety of settings.	- Undertakes assessment in an organised and systematic way. - Uses suitable assessment tools and methods to assist the collection of data. - Applies relevant research to underpin nursing assessment.
2.3 Ensures documentation is accurate and maintains confidentiality of information	- Maintains clear, concise, timely, accurate and current health consumer records within a legal and ethical framework. - Demonstrates literacy and computer skills necessary to record, enter, store, retrieve and organise data essential for care delivery.

2.4 Ensures the health consumer has adequate explanation of the effects, consequences and alternatives of proposed treatment options	• Provides appropriate information to health consumers to protect their rights and to allow informed decisions. • Makes appropriate professional judgement regarding the extent to which the health consumer is capable of participating in decisions related to his/her care. • Facilitates the health consumer's access to appropriate therapies or interventions and respects the health consumer's right to choose amongst alternatives. • Checks health consumers' level of understanding of health care when answering their questions and providing information.
2.5 Acts appropriately to protect oneself and others when faced with unexpected health consumer responses, confrontation, personal threat or other crisis situations	• Understands emergency procedures and plans and lines of communication to maximise effectiveness in a crisis situation. • Takes action in situations that compromise health consumer safety and wellbeing. • Implements nursing responses, procedures and protocols for managing threats to safety within the practice environment.
2.6 Reflects upon, and evaluates with peers and experienced nurses, the effectiveness of nursing care	• Identifies own level of competence and seeks assistance and knowledge as necessary. • Determines the level of care required by individual health consumers. • Accesses advice, assistance, debriefing and direction as necessary.
2.7 Maintains professional development	• Contributes to the support, direction and teaching of colleagues to enhance professional development. • Updates knowledge related to administration of interventions, treatments, medications and best practice guidelines within area of practice. • Takes responsibility for one's own professional development and for sharing knowledge with others. • Participates in annual performance review process including review of performance goals and identification of areas for professional development.

Domain Three - Interpersonal Relationships <i>Domain Three contains competencies that relate to interpersonal and therapeutic communication with clients, other nursing staff and inter-professional communication and documentation.</i>		
3.1	Establishes, maintains and concludes therapeutic interpersonal relationships with health consumers	• Initiates, maintains and concludes therapeutic interpersonal interactions with health consumers. • Incorporates therapeutic use of self and psychotherapeutic communication skills as the basis for nursing care for health consumers with mental health needs. • Utilises effective interviewing and counselling skills in interactions with health consumers. • Demonstrates respect, empathy and interest in health consumer. • Establishes rapport and trust with the health consumers.
3.2	Practises nursing in a negotiated partnership with the health consumer where and when possible	• Implements nursing care in a manner that facilitates the independence, self-esteem and safety of the health consumer and an understanding of therapeutic and partnership principles. • Recognises and supports the personal resourcefulness of people with mental and/or physical illness. • Acknowledges family/whanau perspectives and supports their participation in services.
3.3	Communicates effectively with health consumers and members of the health care team	• Uses a variety of effective communication techniques. • Employs appropriate language to context.
Domain Four - Interprofessional Health Care and Quality Improvement <i>Domain Four contains competencies to demonstrate that the nurse, as a member of the health care team evaluates the effectiveness of care and promotes a nursing perspective within the inter-professional activities of the team.</i>		
4.1	Collaborates and participates with colleagues and members of the health care team to facilitate and coordinate care	• Promotes a nursing perspective and contribution within the inter-professional activities of the health care team. • Provides guidance and support to those entering as students, beginning practitioners and those who are transferring into a new clinical area. • Collaborates with the health consumer and other health team members to develop plan of care. • Maintains and documents information necessary for continuity of care and recovery. • Develops a discharge plan and follow up care in consultation with the health consumer and other members of the health care team.

4.2 Recognises and values the roles and skills of all members of the health care team in the delivery of care	• Makes appropriate formal referrals to other health care team members and other health related sectors for health consumers who require consultation. • Contributes to the co-ordination of care to maximise health outcomes for the health consumer. • Collaborates, consults with and provides accurate information to the health consumer and other health professionals about the prescribed interventions or treatments • Demonstrates a comprehensive knowledge of community services and resources and actively supports service users to use them.
4.3 Participates in quality improvement activities to monitor and improve standards of nursing	• Recognises and identifies researchable practice issues and refers them to appropriate people. • Distributes research findings that indicate changes to practice with colleagues. • A quality, customer-focused service is provided at all times, which follows best practice. • Participation in quality improvement processes in your area of work.
General	• Other duties as negotiated with your Manager.
